

Pre-Conference Day: Tuesday August 23, 2011

Study Participants Needed

Are you a:

Female survivor of an acquired brain injury?

Caregiver for a girl or woman with an acquired brain injury?

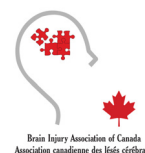

Health care provider to girls and/or women with an acquired brain injury?

We are seeking participants for our study, **Needs of Girls & Women with Acquired Brain Injury in Canada: Perspectives of Stakeholders to Inform a Research Agenda.**

The purpose of this study is to explore whether existing health and related services meet the needs of female survivors of ABI to enable physical, cognitive, mental and social health and wellbeing. This information will be used to inform research, appropriate and effective health and related services, and policy.

Participants will take part in a focus group session lasting 1½ hours and will be compensated for their time. Participants must be 18 years of age or older.

For more information, and to determine your eligibility to participate, please contact Sandra Sokoloff at sandra.sokoloff@utoronto.ca, or call 416.946.8575 **by 5:00pm (Eastern Daylight Time) on Friday, July 29, 2011.**

This project is affiliated with Toronto Rehab and the University of Toronto, and is approved by the Toronto Rehab Research Ethics Board. It is funded through CIHR and ONF. Additional support provided by the Brain Injury Association of Canada.
